## Civil Service Bill.

Washington, 10.—It has been discovered that the civil service bill now in the House, has numerous omissions. This cannot be said of Hawley's bill introduced at the last session. It provides that any officer of the government, in any branch of the public service, or any person who receives compensation from the government shall be prohibited from soliciting or receiving any money which in any sense could be considered a political assessment, under penalty of a maximum fine of \$500, or a maximum imprisonment of three years.

Section 16 provides that no senator or member of the House of Representatives or judge of a court of the United States, shall solicit, receive, or recommend the appointment of any person to any place designated in section one of this act, nor to any place to be filled by appointment of the President, unless requested by the appointing officers. It will be noticed that 45,000 postmasters of the country, appointees by the head of the postoffice department, are carefully excluded from the provisions of the act.

Section 17 provides that any person violating the provisions of section 15, or 16, shall be guilty of a misdemeanor and on conviction thereof, be punished by a fine not exceeding \$100 for each offense.

Beck's resolution is less and less popular among democrats, and many of them are not sure that Beck has now overreached himself. They say he should have consulted his party. His love for notoriety and sensation has got him into an untenable position. If the adoption of the resolution depends on democrats alone, it will become a law.

The Senate committee on civil service reform, to-day, considered Hawley's bill prohibiting the assessment of government employees for political purposes, and adopted an amendment making it a crime and prescribing a penalty for any person entering a public building for such a purpose. Hawley was unanimously authorized to offer a bill with this modification, as an amendment to Pendleton's bill.

## The Irish.

London, 10.—More marines will be sent to Ireland to do police duty.

Dublin, 10.—It is understood there is only one dissenting juror in the case of Patrick Higgins, alleged principal in the Huddy murders. The prisoner will be placed on trial again to-morrow.

Dublin, 10.—Parrell has lodged a petition in the land court for the sale of his property in County Wicklow.

The government will give £1,250 to three of Joyce's witnesses in the trial of the Macmahon murder.

It is understood the one juror who refused to concur with the other members of the jury in returning a verdict of guilty in the case of Patrick Higgins, alleged principal in the murder of the Judge, is the same man who disagreed with the other jurors in the arson case last Thursday, in which the prisoner was clearly proven guilty. Council for Patrick Higgins elicited on the trial the fact that the Ladies' Land League supplied money weekly to informant Kerrigan, whom the council claimed was the real murderer.

Dublin, 11.—The second trial of Patrick Higgins began to-day.

The Lord Lieutenant has commuted the death sentence of five of the Joyce murderers.

## Logan Against Porter—Governments Education.

Washington, 11.—When the bill for the relief of General Fitz John Porter is reached in the Senate, Senator Logan says he will oppose it to the end. In conversation on the subject this morning, Logan reminded that General Grant and others were bringing strong pressure to bear in Porter's favor. The Senator said he did not think Grant was any better informed about the case than he, and at all events he had no vote on the pending bill.

The House committee on education and labor, to-day, authorized Chairman Sherman (Illinois) to report with favorable recommendation a bill appropriating \$10,000,000 annually, for the next five years, to aid in public education. It is proposed that this sum shall be distributed among the several territories by the secretary in the ratio of illiteracy. It is also provided that a sum not exceeding five per cent. of the appropriation may be expended annually for the education of teachers.

## The Nicaragua Canal.

Washington, 11.—Belmont's individual report on the Nicaragua Canal, which was reported favorably to the House by a majority of the committee in July last, appears the bill because it would commit the United States to guarantee that the annual net receipts from the traffic through the canal will not be less in amount than three per cent. upon the total cost of the canal, and compel the secretary of the treasury to annually pay out of the treasury the sum necessary to make good the undertaking, because it limits the rights and privileges of the United States in control of the canal, and because article fifty-one of the convention conflicts with the pledge made under the Clayton-Bulwer treaty. Other reasons are given in the report which is prolix.

## Obituary.
